

INCIDENT MANAGEMENT SITUATION REPORT
THURSDAY JULY 17, 2003 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL 3

CURRENT SITUATION:

Initial attack activity was moderate in the Northern Rockies, the Northwest, Rocky Mountain, the Southwest and the Southern California Areas, and light elsewhere. Nationally, 225 new fires were reported. Six new large fires were reported, three in the Rocky Mountain Area, and one each in the Northern Rockies, the Southwest, and Southern California Areas. Five large fires were contained, one each in the Western Great Basin, the Eastern Great Basin, the Southwest, the Southern California and the Northwest. Very high to extreme fire indices were reported in Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oklahoma, Oregon, Texas, Utah, Washington and Wyoming.

SOUTHWEST AREA LARGE FIRES:

KINISHBA, Fort Apache Agency, Bureau of Indian Affairs. Type 1 Incident Management Team (Humphrey) is assigned. This fire is in ponderosa pine, woodlands and chaparral, two miles west of Whiteriver, AZ. Due to high winds active fire behavior with torching and spotting was observed. Crews are constructing indirect containment lines and conducting burn out operations. The communities of Cradlebroad, Over the Rainbow, Jurassic Park and Whiteriver have been evacuated. Structure protection is in place for 700 threatened residences.

SPRUCE COMPLEX, Gila National Forest. A Type 2 Incident Management Team (Bateman) is assigned. This complex is composed of the Spruce, Silver, Nabours, and Parallel fires and is in brush, ponderosa pine and mixed conifer, nine miles east of Glenwood, NM. All fires remain active within the complex.

MOLINA COMPLEX, Santa Fe National Forest. A Type 2 Incident Management Team (Philbin) has been ordered. This complex, comprised of the Capulin and Molina fires, is eight miles east of Cundiyo, NM. The fire is being managed with a confinement strategy. Crews are holding containment lines north of the Capulin Drainage.

DRY LAKE COMPLEX, Gila National Forest. A Fire Use Management Team (Rath) is assigned; the Team is also managing the Turnbo fire. This lightning caused Wildland Fire Use complex, comprised of the Dry Lake, Sycamore, Moonshine and Granny fires, is 27 miles northwest of Silver City, NM. The primary fuels involved in these fires are pinyon pine, juniper, ponderosa pine and grass. The complex is being managed to accomplish multiple resource objectives. Surface fire activity increased due to high winds.

TURNBO, Gila National Forest. A Fire Use Management Team (Rath) is assigned. This fire is 37 miles northwest of Silver City, NM, and is being managed with a confinement suppression strategy. Significant increase in surface fire behavior due to intense winds was observed in mixed conifer with heavy concentrations of dead and down fuel.

MAPLE, Apache-Sitgreaves National Forest. This fire is in grass, brush and ponderosa pine, 25 miles northeast of Clifton, AZ. The fire is being managed with a confine/contain strategy. Minimal fire behavior was observed. The fire is in monitor status.

POPCORN, San Carlos Agency, Bureau of Indian Affairs. This fire is in pinyon pine, juniper, and brush, 35 miles northeast of Globe, AZ. Crews are constructing direct attack fireline.

DIVIDE, Gila National Forest. This fire is seven miles southeast of Aragon, NM. Moderate fire behavior was observed in grass, ponderosa pine and mixed conifers. Crews are constructing containment lines and conducting burn out operations

LUERA, Socorro District, New Mexico - State Forestry. This fire is in pinyon pine, ponderosa pine, juniper and Douglas fir, 20 miles south of Datil, NM. Active surface fire behavior was observed. Engine crews are monitoring.

WINDMILL, Safford Field Office, Arizona State Office. This fire is in grass, cottonwoods and mesquite, 15 miles northeast of Sonoita, AZ. Moderate fire behavior in light fuel was observed. Crews are patrolling and mopping up.

WEST, Safford-Tucson Field Office, Bureau of Land Management. This fire is 15 miles southeast of Sierra Vista, AZ. Moderate fire behavior was observed in sacaton grass, cottonwood, and mesquite. Engine crews are improving containment lines and mopping up in heavy fuel.

LARGO, Apache-Sitgreaves National Forest. This fire is in ponderosa pine, pinyon pine, juniper and grass, 15 miles south of Alpine, AZ. Active fire behavior with short uphill runs, torching, and short range spotting was observed. Crews are constructing containment lines on the east side of the fire. Structure protection is in place for 31 threatened structures.

STEEPLE, Apache-Sitgreaves National Forest. This fire is in mixed conifer with heavy dead and down fuel, five miles east of Hannagan Meadow, AZ. Active fire behavior with short uphill runs, torching, crowning and spotting was observed. Personnel are burning out along Highway 191. Structure protection is in place for 13 threatened structures.

SKELETON, Arizona State. This fire is in desert shrub, brush and open grassland, 15 miles east to northeast of Douglas, AZ. This wind driven fire moved rapidly in fine fuels. Personnel are patrolling, mopping up and monitoring.

TAA = Taos Northern Pueblos Agency, Bureau of Indian Affairs

EASTERN GREAT BASIN AREA LARGE FIRES:

EAST TABLE, Bridger-Teton National Forest. A Type 2 Incident Management Team (Broyles) is assigned. This fire is ten miles east of Alpine, WY. Favorable winds minimized fire behavior in grass and heavy timber. Crews are constructing containment lines.

TOBIAS, Salmon-Challis National Forest. A Type 2 Incident Management Team (Van Bruggen) is assigned. This fire is in grass, sage and mixed conifer with dead and down fuel, 18 miles north to northwest of Leadore, ID. A decrease in fire behavior due to favorable weather was observed. Crews are constructing fireline. Structure protection is in place for two residences that are threatened. One residence and 13 out buildings have been confirmed lost. Reduction in acreage is due to more accurate mapping.

BLACKWALL, Salmon-Challis National Forest. A Type 2 Incident Management Team (Kechter) is assigned. This fire is in mixed conifer with heavy ground fuel, 32 miles north of Salmon, ID. Active fire behavior due to high winds produced spotting and short crown fire runs. Crews are constructing fireline.

BULLDOG, Richfield Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Brunner) is assigned. This fire is in oak, mountain mahogany, juniper and pinyon pine, 17 miles north of Ticaboo, UT. Crews are improving containment lines and conducting burn out operations. One commercial property and several out buildings are threatened; structure protection is in place. Five outbuildings have been confirmed lost.

FARMINGTON, Wasatch-Cache National Forest. A Type 1 Incident Management Team (Hart) is assigned. This fire is one-half mile east of Farmington, UT. Creeping and individual tree torching within the interior was observed in oak brush, cheat grass, spruce and fir. Crews are mopping up and improving fireline with support from aerial resources in inaccessible areas. Structure protection remains in place for several summer cabins and 41 residences in Farmington and Fruit Heights.

WOODENSHOE, Manti-LaSal National Forest. This fire is in the Dark Canyon Wilderness Area, 25 miles west of Blanding, UT. The fire is being managed with a confine/contain strategy. This will be the last report unless significant activity occurs.

NWS = Northwest State, Utah State

NORTHWEST AREA LARGE FIRES:

CLARK, Willamette National Forest. A Unified Command has been established between a Type 2 Incident Management Team (Gardner) and An Oregon Department of Forestry Incident Management Team (Labhart). This fire is in understory and timber with dead and down fuels, ten miles northeast of Lowell, OR. Active fire behavior with running, torching and spotting was observed. Crews are building containment lines on the south and west flanks. The Bed Rock Campground remains evacuated and structure protection is in place for five threatened residences.

MIDDLE FORK, Southeast Washington State. A Washington Interagency Incident Management Team (Bernt/Andring) is assigned. This fire is 21 miles east of Yakima, WA. Minimal fire behavior was observed. Crews are mopping up and improving fireline. Structure protection is in place for 150 threatened residences.

FAWN PEAK COMPLEX, Okanogan-Wenatchee National Forest. A Type 1 Incident Management Team (Lohrey) is assigned. This complex is comprised of the Fawn Peak, Sweetgrass and Farewell fires; the Fawn Peak and Sweetgrass fires have been controlled. The Farewell fire is in sub-alpine fir with heavy dead and down timber, 13 miles northwest of Winthrop, WA. Significant runs were observed in the Disaster Creek drainage of the Pasayten Wilderness Area. Crews are constructing direct handline on the west flank towards Barney Mountain. The residents of nine summer homes remain evacuated; structure protection is in place east of the Church River. Reduction in acreage is due to more accurate mapping.

JENKINS CABIN, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Keith) is assigned. This fire is in conifer, brush and grass, five miles north of Mt. Vernon, OR. Minimal fire behavior was observed. Crews are reinforcing containment lines and mopping up.

ROCKY MOUNTAIN AREA LARGE FIRES:

GRAMM, Medicine Bow National Forest. A Type 2 Incident Management Team (Mullenix) is assigned. This fire is 30 miles southwest of Laramie, WY. Active ground fire with short runs of crowning, torching and spotting were observed in ponderosa pine. Structure protection is in place for 241 threatened structures.

BALCONY HOUSE COMPLEX, Mesa Verde National Park. A Type 2 Incident Management Team has been ordered. This fire is in pinyon pine and juniper, in Mesa Verde National Park. Extreme fire behavior was observed.

CARR, Garfield County, CO. This fire is in pinyon pine, juniper and sagebrush, 13 miles northwest of DeBeque, CO. Smoldering fire behavior with isolated torching was observed. Crews are holding and constructing containment lines. Structure protection is in place for six residences that are threatened. Reduction in acreage is due to more accurate mapping.

BRUSH MOUNTAIN, Garfield County, CO. A Type 2 Incident Management Team (Blume) is assigned. This fire is 30 miles north of Grand Junction, CO. Active fire behavior with short runs and torching was observed in spruce, fir, pinyon pine, juniper, brush and grass. Crews are holding and constructing fireline.

BEAR CREEK, San Juan National Forest. A Fire Use Management Team (Clark) is assigned. This Wildland Fire Use fire is in spruce and fir, five miles northeast of Vallecito, CO. The fire is being managed for resource benefit. Slow burning through dead and down fuels and occasional torching were observed. Crews are constructing and holding fireline on a slop over in Vallecito Canyon.

OTTER, Washakie County. This fire is in spruce fur and sagebrush, 20 miles northwest of Kaycee, WY. Extreme fire behavior with torching and spotting was observed. Crews are constructing fireline and mopping up.

DEEP LAKE, Shoshone National Forest. This fire is 30 miles northwest of Cody, WY. Active fire behavior with torching and spotting was observed. Personnel are holding containment lines on the east flank of the fire.

NORTHERN ROCKIES AREA LARGE FIRES:

BOX CANYON, Central Land Office, Montana Dept. of Natural Resources & Conservation. This fire is in grass and timber, 34 miles north of Helena, MT. Active fire behavior with torching and spotting was observed. Crews are holding and constructing containment lines with support from aerial resources. Structure protection is in place for threatened structures. One out building is confirmed lost.

JIMTOWN, Helena National Forest. A Type 2 Incident Management Team (Swope) is assigned. This fire is in grass and timber, ten miles northeast of Helena, MT. Minimal fire activity in pockets of heavy fuels was observed. Crews are mopping up.

ARMELLS, Lewistown Field Office, Bureau of Land Management. This fire is 18 miles northwest of Roy, MT. Reduction in acreage is due to more accurate mapping.

OUTLOOK:

Fire Weather Watches: For western Wyoming for dry lightning, low relative humidity, warm temperatures and dry fuels. For the Bridger–Teton National Forest for low relative humidity and dry lightning.

Red Flag Warning: For dry lightning over the mountains of San Bernardino, Riverside, and San Diego counties, except for the Santa Ana range.

Weather Discussion: What is left of Claudette will track along the New Mexico/Mexico border today, injecting additional moisture into a developing southerly flow across the western states. Showers and wet thunderstorms are expected in southern New Mexico, with some moisture arriving in southeast Arizona during the early evening. Some of this moisture is also expect to wrap into west-central Arizona, southern California, the southern Great Basin and western Colorado, triggering a mixture of wet and dry thunderstorms. Unstable air over the Pacific Northwest will continue to provide a chance of very isolated dry thunderstorms over higher elevations of southeast Oregon.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
EASTERN GREAT BASIN AREA Idaho and the Bridger-Teton will be mostly sunny with a slight chance of dry afternoon mountain thunderstorms. Utah and the Arizona Strip will be partly cloudy. Slight chance of dry afternoon thunderstorms over mountains in the north. Higher chance of wet thunderstorms in the south.	Idaho, Bridger-Teton 64 to 90 mountains, 76 to 99 valleys. Utah and Arizona Strip 82 to 98 higher elevations, 90 to 105 valleys.	Idaho, Bridger-Teton 12 to 23% mountains, 9 to 16% valleys. Utah, Arizona Strip 13 to 20% mountains, 5 to 14% valleys.	Light and variable region wide, except gusts up to 35 mph in the vicinity of thunderstorms.

<p>NORTHERN CALIFORNIA AREA Mostly sunny, with cumulus developing over the ridges in the afternoon. A slight chance of afternoon and evening mainly dry thunderstorms over the higher terrain of the Northern Sierra and eastside Predictive Service Areas. Patchy low clouds and fog near the coast, mostly clearing by midday.</p>	<p>60s to low 70s near the coast, low 80s to low 90s higher terrain, and low 90s to 106 inland valleys.</p>	<p>50% or more along the coast, 20 to 30% higher terrain, 12 to 22% inland valleys, and 5 to 13% east of the Sierra Cascade Crest.</p>	<p>Variable under 12 mph, mainly southeast to southwest. Peak afternoon gusts southwest about 20 mph over Cascade/Sierra crest eastward</p>
<p>NORTHERN ROCKIES AREA Isolated to scattered thunderstorms for eastern Montana and North Dakota</p>	<p>Idaho 90 to 100 Montana 85 to 100 North Dakota 80s</p>	<p>Idaho 20 to 30% Montana 18 to 25% North Dakota 40 to 50%</p>	<p>Southwest to northwest 5 to 15 mph</p>
<p>NORTHWEST AREA Increasing threat for some afternoon thunderstorms mainly in south central and eastern Oregon.</p>	<p>Warming. 80s and 90s except to low 100s in parts of southern Oregon.</p>	<p>West of Cascades ranging from 15%. Southwest Oregon to 35%. Northwest Washington. Eastside 5 to 15 % with lowest values in southeast Oregon.</p>	<p>No significant wind. Generally northwest to north 5 to 15 mph. Local gusts to 25 in parts of eastern Washington and Oregon.</p>
<p>ROCKY MOUNTAIN AREA Partly cloudy. Isolated to widely scattered thunderstorms. Thunderstorms will be mainly dry, except for the plains of South Dakota, and Nebraska.</p>	<p>Highs in the upper 80s to mid and upper 90s (70s to mid 80s mountains).</p>	<p>8 to 18% western sections and central Wyoming. 20 to 40% eastern sections.</p>	<p>Southeast winds 15 to 25 mph northern plains and Black. 5 to 15 mph for the front range. Slope/valley 5 to 15 mph in western Colorado and northern Wyoming.</p>
<p>SOUTHERN CALIFORNIA AREA Patchy morning low clouds and fog coastal areas, otherwise partly cloudy with isolated dry thunderstorms over the mountains and deserts of southern California mainly east of Cajon Pass and over the Sierras mainly from the crest eastward.</p>	<p>70 to 85 coastal areas. 80 to 100 mountains. 90 to 110 valleys. 100 to 110 upper desert. 110 to 120 low desert.</p>	<p>10 to 20% deserts. 15 to 30% mountains. 20 to 35% valleys.</p>	<p>Southeast to southwest 5 to 15 mph.</p>
<p>SOUTHWEST AREA Partly cloudy with isolated wet and dry thunderstorms. Scattered wet storms over southern Arizona.</p>	<p>75 to 85 mountains, 85 to 105 lower elevations.</p>	<p>10 to 20% Northern Arizona and New Mexico, 20 to 30% west Texas and southern Arizona.</p>	<p>Variable 10 to 20 mph with east winds 15 to 25 mph southern Arizona and extreme southwest New Mexico. Gusts to 45+ near thunderstorms.</p>
<p>WESTERN GREAT BASIN AREA Mostly sunny skies in the morning with afternoon cloudiness and a good chance of isolated afternoon dry thunderstorms.</p>	<p>Upper 80s to near 100 valleys, 80 to 90 mountains, with a maximum of 102 in the southern deserts.</p>	<p>7 to 18% at lower elevations, 10 to 22% in upper elevations and 15 to 25% in the Sierras.</p>	<p>Generally upslope/up canyon in the afternoon at 8 to 15 mph.</p>
